RECOMMENDED READINGS ON READING IMPAIRMENT

(1) Catch Them Before They Fall,

Google Joseph Torgesen, Florida State University. See his article Catch Them Before They Fall, where

he points in revealing detail to one of the most serious holes in the fabric of many, if not most, schools'

reading programs -- waiting too long to take a close look to discover those at risk for reading trouble.

That article could help you phrase some questions to raise at a school board meeting. If you can't find

the piece on the internet, contact me and I'll find it for you.

(2) Google William Catone. If you don't find a site listing this article, contact me and I'll find it for you.

The Inadequacy of Individual Educational Program (IEP) Goals for High School Students with Word-level

Reading Difficulty. William V. Catone and Susan A. Brady, University of Rhode Island.
